- Internship placements are for 11th and 12th grade students. Students are encouraged to participate in Internships while attending CMTHS. Internships allow the student to experience the field in which they chose to study and provide a student with a choice as to what they may want to specialize in upon graduation.
- Internships are reserved to provide the student with an opportunity to work alongside a mentor at an off-campus location. The experience the students are exposed to should be designed to satisfy skill development tasks as outlined in the curriculum associated with the student's career objective.
- Shadowing experiences are for any student to observe the career field in which a student has an interest in a business or industry for one or two days. Shadowing experiences are unpaid.
